

Frequently Asked Questions

What's the benefit of the service and how is it different?

- ✓ Whether you hire a company to build you a new website or pay Yellow Pages for space, you're paying for promises. With Bounce, we handle the marketing and advertising; you simply answer your phone and pay per appointment. There are no long term contracts or huge up-front investments. It's the perfect solution for any company that wants to acquire new business and stay busy.

How are my calls generated?

- ✓ We use various marketing channels to make ourselves available to consumers in need. The consumer makes the call, and we connect them directly with you.

What is Bounce advertising to consumers?

- ✓ We advertise general content that is standard to your industry. We do not advertise pricing. Please verify that you follow these advertising claims:
 - You accept major forms of payment (cash, check, credit cards).
 - You are licensed to perform your service in your state.
 - You accept residential and commercial projects.

How much does this cost?

- ✓ Our price is one flat rate per appointment you set up through our service. Whether it's a \$400 job or a \$4,000 job, you pay the same amount. Please contact us for pricing and specials.

What if the consumer does not end up using me?

- ✓ We provide the calls; you provide the competitive pricing and service. Both you and the consumer will treat this as a standard service inquiry. If you make an appointment to meet the consumer, you will be charged.

What if I'm already booked up?

- ✓ Good for you! We can pause your calls and resume them when your schedule opens up.

How do I try it out?

- ✓ Test Drive us for free with no obligations!

Contact Us:

Phone: **1-800-928-1227** (toll free) or
email: **customerservice@bouncewebsites.com**

Tell us that you want to Test Drive the service. We'll give you a quick orientation, and you could start receiving calls as soon as tomorrow.
